From Vines . . .

to Premium Wines

A Commitment to Excellence

*Estate Grown-
Estate Bottled*

Superior Estates premium wines are the result of years of hard work in researching and developing an outstanding vineyard. The vineyard location was identified by Viticulturist Richard Smart as a perfect site for a vineyard. Grapes grown were selected for their ability to produce excellent wine fruit and not based on production. By using estate grown grapes we insure quality control so necessary in producing the best possible fruit.

Crafted by a skilled enologist, our wines have received Gold and Double Gold medals in some of the largest international wine competitions. They are sure to delight your palate.

The winery was designed to represent the process of growing grapes and producing wine. The stately, limestone and wood visitors building, influenced by the Arts and Crafts movement of architecture, has colossal windows, cathedral ceilings, soaring beams, and trellises. Reminiscent of wineries in the California wine-growing region of Napa Valley it is a pleasant surprise in the rolling hills of the Republican River Valley.
